

# 50 TREES OF UPTOWN

## 50 TREES OF UPTOWN

This walking tour is intended to start at the Public Library at Lawrence and Harrison. There are two loops shown with colored lines, starting at #1 and #26, for those who don't wish to see all 50 trees in one walk.

Those trees noted in ownership on the reverse as **PP** are on private property. They may have their roots in private soil, but they spread their canopies over public space. We ask you to respect the privacy of the homeowners and admire their trees from a distance, on public streets and sidewalks.

This is our inaugural tree walking tour guide. We would welcome your comments and corrections to improve it.

Tree locations and identifications listed on the opposite side are provided courtesy Fred Weinmann & Sarah Fairbank, Washington Native Plant Society.

**PORT TOWNSEND UPTOWN TREES BY COMMON & SCIENTIFIC NAME, OWNERSHIP AND LOCATION**

#	Name	Owner	Scientific name	Nearest Intersection	Address
1	Scot's pine	ROW	Pinus sylvestris	Lawrence/Harrison	642 Harrison
