

LAWRENCE STREET MULTIMODAL IMPROVEMENTS PROJECT NOTIFICATION HARRISON STREET TO WALKER STREET

August 11, 2025

Greetings Lawrence Street Households and/or Business Owners in the Project Area,

The City is starting design of the Lawrence Street Multimodal Improvements Project, between Harrison and Walker Street. You are receiving this notification letter as a property and/or business owner within close proximity of the project area. The attached map illustrates the project limits. Please read this letter carefully as it contains pertinent information about the project, and feel free to share this letter with anyone you know who may be interested in learning about the project. Also, you can visit the project webpage for updates because timelines may shift as the project progresses. Your project contact is Laura Parsons, P.E., Civil Engineer III with the City of Port Townsend Engineering Department, lp Parsons@cityofpt.us.

Project Overview

The Lawrence Street Multimodal Improvements Project will reconstruct 1,600 linear feet of Lawrence Street between Harrison and Walker, addressing both subgrade and pavement deterioration. Bike facilities and some landscaping will be included as well. Additionally, the project will repair sidewalks, upgrade accessibility (ADA), and fill in sidewalk gaps, thus completing a fully accessible route from Harrison to Walker Street. Water, sewer, and stormwater utility upgrades will also be completed as part of the project.

You're invited to a walk-through!

You are invited to participate in a community walk-through of the project corridor. This event will be an opportunity for community members to share their thoughts about the corridor design. Adjacent property owners may also weigh in about considerations for their individual properties. Additionally, this walk-through will be a chance for the public to meet City staff and the engineering consultant involved with the project design.

What: Lawrence Street Project Community Walk-Through

Date: Wednesday, August 27th

Time: 4:00 pm – 6:00 pm

Where: Meet outside the Fire Station on the NW corner of Lawrence and Harrison Street.

Project Funding

The City received \$2.9 million from the Transportation Improvement Board (TIB) in 2024 for implementing this project. With this grant, local Transportation Benefit District (TBD) funding, and utilities funds the total project budget comes to \$4.1 million.

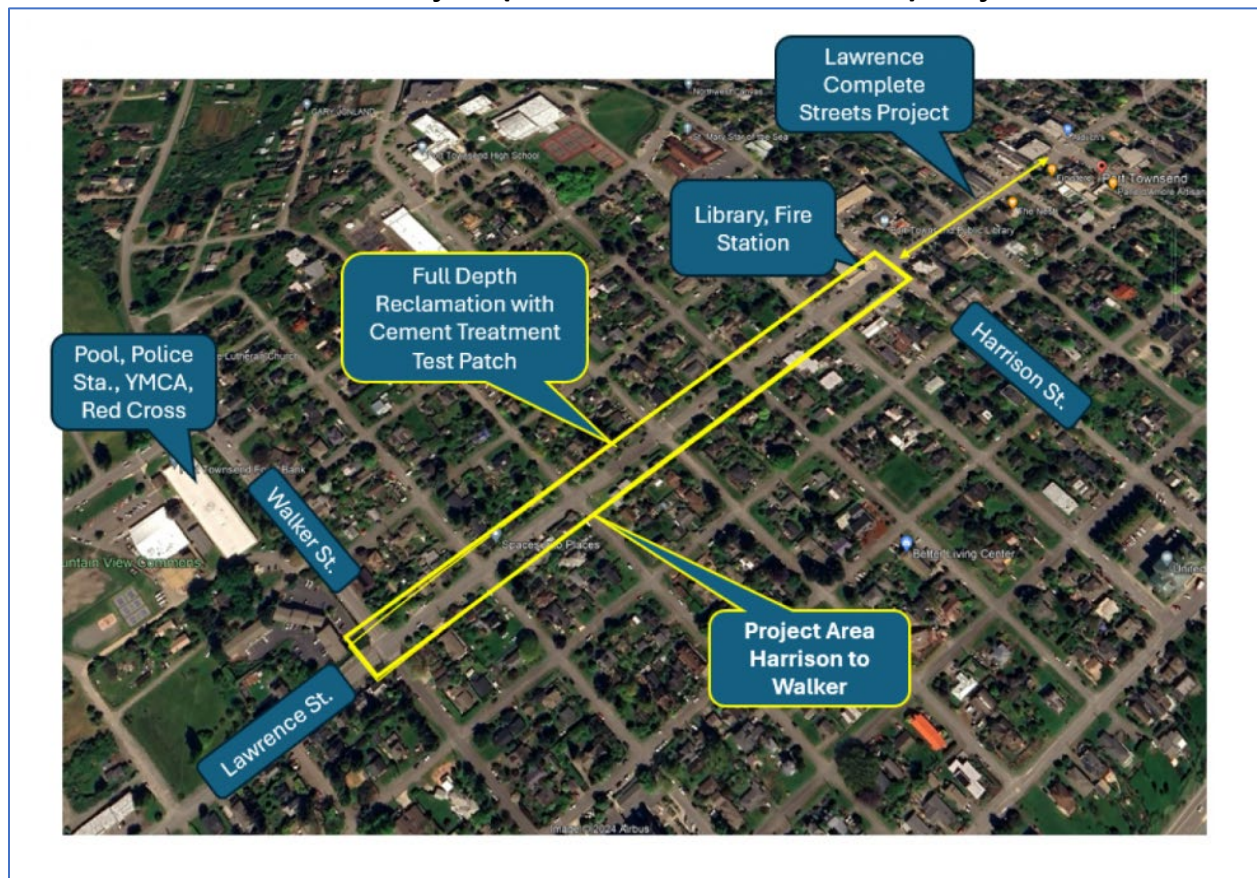

Project Timeline

Design is scheduled for Fall of 2025 and into Spring of 2026. City staff anticipates project construction will start in Fall of 2026 and be completed in Summer of 2027. The street will not be closed apart from a few paving days. As we learn more details about the schedule, we will keep the public posted.

Please refer to and stay up to date as the project develops on our Lawrence Street Project webpage using this URL or the QR code on the reverse.
